Subject: Maryland Animal Agriculture Program Assessment Interim Final Report
Attachments: Maryland Animal Agriculture Program Assessment_InterimFinalReport_v1.2_markup.docx

Maryland Colleagues:

I wanted to thank you once again for reviewing the Draft Maryland Animal Agriculture Program Assessment and for providing your comments and suggested edits to improve the accuracy of the report. We have taken the draft report and updated it based on the comments you provided. I am attaching the most current version of the report, which is the Maryland Animal Agriculture Program Assessment Interim Final Report. The Interim Final Report tracks all changes from the Draft Report that we sent you on 5/1, including Maryland's comments on the Draft Report and EPA's responses to those comments. I wanted to provide you the opportunity to see how we proposed addressing Maryland's comments. I also wanted to make sure that the revisions we made are still accurate. I highlighted a few of my comments in green where we could use either additional information or another review or the revised text by Maryland.

I would appreciate if you could take a look over the next two weeks and share any final concerns on the report before the report is finalized and shared publically. Since we are briefing our managers on the report on 7/21, I would appreciate if you could let me know by then of any major concerns with the Interim Final report. If you have any minor edits/typos, I wouldn't need those as earlier, and as long as you share those minor edits/typos with me by 7/31, I'll be sure to address them in the Final Report.

Thanks again for all of your help with this assessment, and I'll look for a response by 7/21 with any major concerns if you have them.
